SCHOOL REPORT

Superintendent, J. P. Fuller

To the Superintending School Committee and Citizens of the town of Washington:

I herewith respectfully submit my annual report of the schools of your town.

The school population in the town of Washington has increased between thirty and fifty percent during the past municipal year which meant an added burden on the school department financially. An extra teacher had to be employed, more conveyance furnished and more textbooks and supplies.

You can interrupt the building of a road and go back to it later, but if you interrupt the decent care of a child you can by no means go on where you left off. A child can not grow up twice.

Our children and young people follow the old worn way to the schoolhouse. There they must find at least the opportunities offered so freely to their predecessors. If there must be a choice build a schoolhouse, and leave a road unbuilt. We must have education; it is America's boast. While other things are crumbling, our schools must be maintained.

If schools are a blessing in good times, they are an imperative necessity in bad times. They safeguard the health of the child; they fortify the home, they give hope and encouragement to the citizens who are victims of misfortune but who can take satisfaction that their children are cared for. The schools are ourselves working together in the education of our children. When times are hard we need to make that education better — to take more seriously our common task of preparing the young for life. Let us preserve and improve our schools. Let us keep the children first.

The chemical toilets at the Razorville school are very unsanitary and unsatisfactory. Something must be done to remedy this situation next year. The Razorville building also needs shingling. The chimney at the village needs to be repaired and the roof of the assistant's room at the high school building needs repairing.

The pupils of the town of Washington are fortunate in receiving two extra weeks schooling from the State Equalization Fund. This should give the pupils a better chance to complete

their work in the various grades, and give the teachers an opportunity to bring more work before the pupils.

In conclusion I wish to state that I appreciate the cooperation of the School Committee, the untiring efforts on the part of the teachers, and the cooperation of other citizens of the town.

Respectfully submitted,

J. P. Fuller

There are now about 2075 books in the library. This includes the new books and those which replace the discards. Books have also been given by several friends during the year and others received from the state for reference use.

Again this year we desire to express our pleasure at seeing our high school students making such good use of the books for book reports and reference. The usual good patronage of the library has been going on in West Washington under the able supervision of Mrs. Lina Bartlett. The circulation during the past year has been about the same as in the past, we assume, although the librarian's report, has not yet been received.

Respectfully submitted,

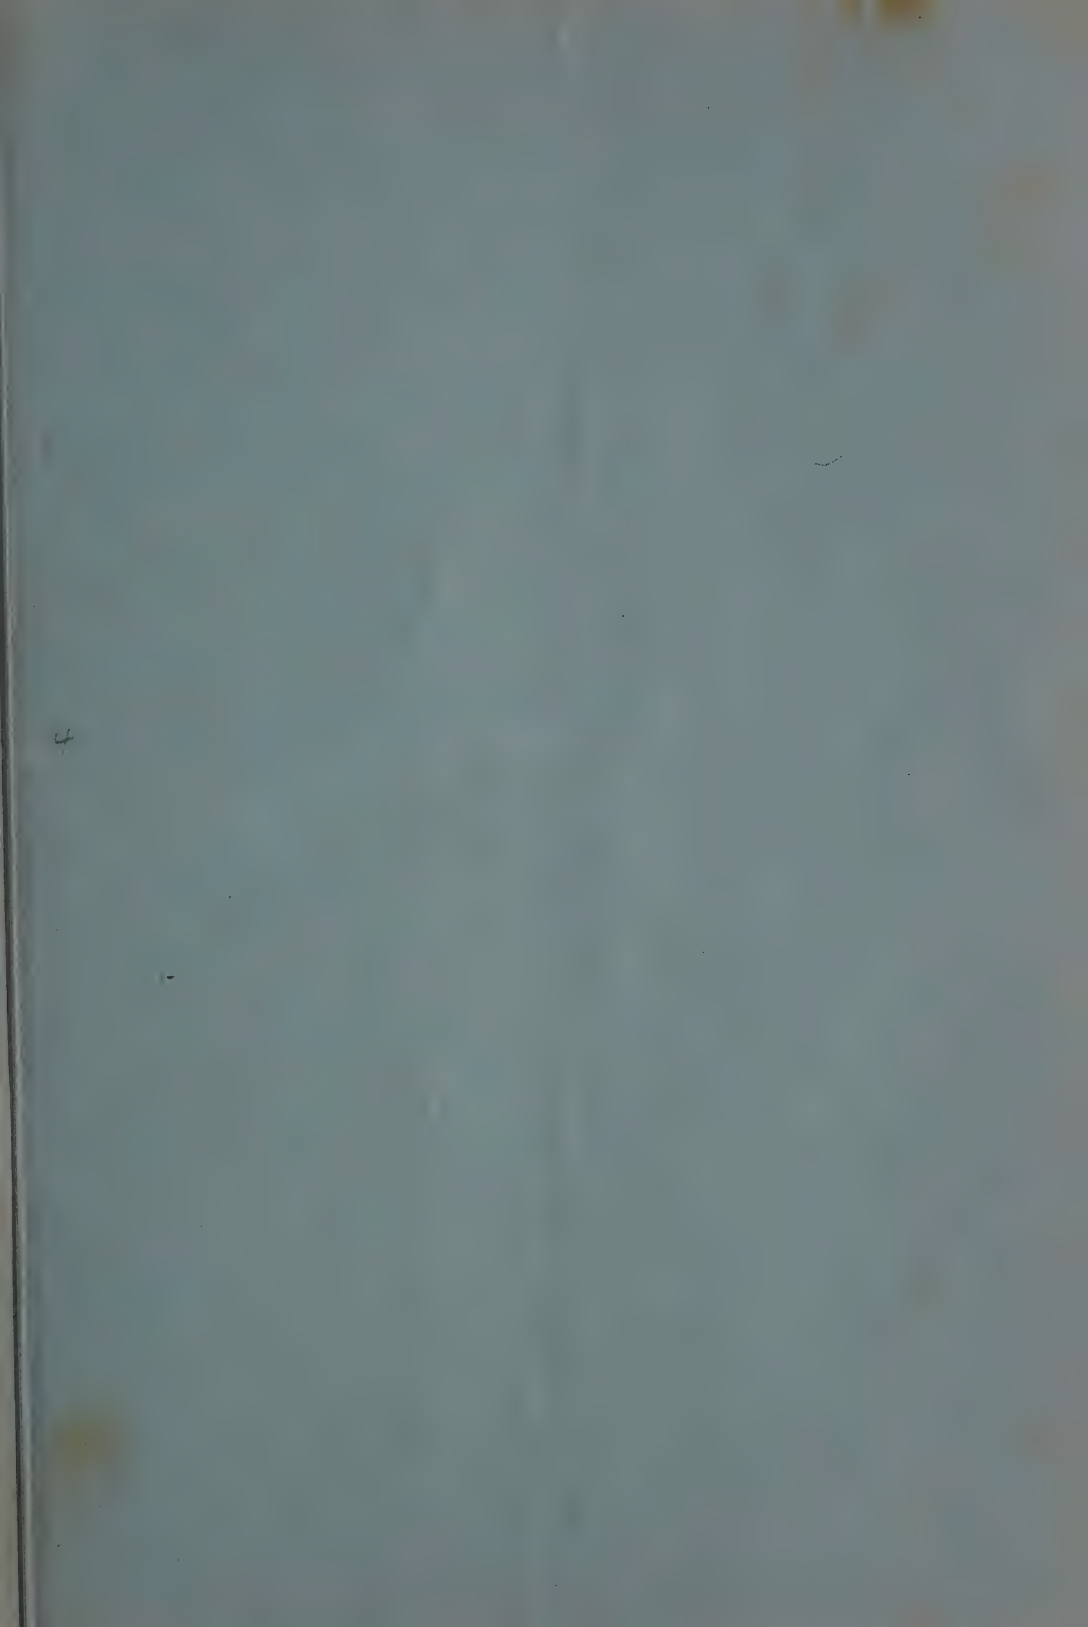

Mrs. Inez M. Cunningham
Mrs. Ella M. Brann
Mrs. Leslie Davis
Mrs. Lina Bartlett
Mrs. Clara S. Overlock
